

SHADOW

TRACING

SHADOW TRACING

NEEDED ITEMS

- Variety of toys
- Sidewalk chalk
- Paper
- Pens, colored pencils, crayons, markers, any drawing utensils

DIRECTIONS

Gather toys, drawing equipment, and head outside in the morning or evening. Place toys onto a flat horizontal surface and trace the shadow onto paper with a writing utensil or onto the ground with sidewalk chalk.

Use toys, yourself, bikes, trees, or any item outside to create shadows with! Compare how shadows change at different times of the day, see how tall shadows get, or create a mural of shadows. It's your creation!
